A large and concealed ash pan provides easy access and reduces maintenance time

The XXV-TC pellet stove is a tribute to decades of Harman success. It burns with an uncompromising commitment to quality and is popular for its cast iron workmanship and intricate oak leaf styling, but loved for its unmatched temperature accuracy and control. Harman continues to raise the standard for excellence, with the revolutionary EASY Touch Control system making the pellet stove experience easier and more intuitive than ever before.

- EASY Touch Controls** easy to use, one-screen operation with menus for scheduling, diagnostics, cleaning prompts and fuel gauges
- Wireless Room Sensor** compliments the Easy Touch Control system and gives you the most precise temperatures where you want to feel the heat
- ESP Temperature Control** an exhaust sensing probe system delivers precise heating control and constantly monitors and adjusts heat output to maintain set room temperatures
- PelletPro™ Technology** makes it possible to burn any grade of pellet fuel with maximum heat and efficiency. A bottom-up feed system burns each pellet completely and allows for 24-hour heating
